As an aspiring junior software engineer with a developing foundation in full stack development and a passion for coding, I am seeking to begin my career in the tech industry with a dynamic and innovative company.

Technical Skills

- Frontend: *HTML5, CSS, JQuery, Javascript, Bootstrap, AJAX, SASS*
- Backend: *MySQL, MongoDB, Express, ReactJS, Node, Handlebars, Firebase, AWS, Webpack, Gulp, Python*

Projects

Movie Search Engine | *Repo* | *Deployed*

Head Developer

- The application serves as a movie search engine where the user can search a movie title and receive information regarding the movie plot, genre, film rating, movie poster, and locations to stream.
- The application utilizes two movie APIs to perform the various functions of the search. The project served to apply frontend skills to build a functioning application. I worked on a team and wrote most of the HTML, CSS, and JavaScript code.
- Tools/Languages: HTML, CSS/Bootstrap, JavaScript/JQuery, APIs, GitHub

Work Experience

Noom, Inc.

December 2018 – April 2022

Virtual Health Coach (Remote)

- Worked collaboratively with clients to establish healthy goals and monitor progress
- Worked collaboratively with a virtual team; Utilized Slack and Zoom
- Heavily utilized interdisciplinary communication skills, relationship-building skills, efficiency enhancement, problem-solving skills, and adherence to timelines and guidelines

Education

Butler University (Full Stack Coding Bootcamp)

Graduation Upcoming in August 2023

- Full Stack Developer Certification

University of Southern Indiana

Graduated May 2018

- Bachelor of Science in Nutrition/Dietetics
